RUPPMEN FACE STRONG BUTLER **QUINTET TONIGHT**

Strong Bulldog Team Peaten Only by Notre Dame, Wisconsin in Closely Fought Tilts

WILDCAT CAGEMEN IN GOOD CONDITION

Return Engagement With Vols Slated After Cats Return Home

By MAXIE LANCASTER Coach Adolph Rupp's Kentucky Wildcats will face their second strong opponent in two days when they encounter the highly touted

at Indianapolls. The Kentucky team left Lexing-ton Sunday on a tour of the famous basketball state of Indiana. They met Notre Dame last night at South Bend and Invade the Butier fleid-

Butler University Bulldogs tonight

house tonight. Little is known of the strength of the Bulldogs, except that they were defeated by Notre Dame early in the season by 35-27 count. They were defeated Saturday night by the University of Wisconsin, in a closely fought 28-24 battle. Despite these losses Butler has chalked up some wins over the outstanding teams in the Big Ten and is still highly regarded in Hoosler basket-

bail circles. The Wildcats came out of the tough Alabama game last Friday night in excellent condition and Coach Rupp expects to be able to throw his full strength against the Butler team. Ralph Carlisle, who was in a slump on the last trip taken by the Big Blue, apparently has re-gained his best form and should give the Bulldogs plenty of trouble.

The Kentucky team will return to Lexington Wednesday and after a two-day rest will journey to Knox-ville for a return engagement with the Tennessee Volunteers. The Vols handed the Cats a scare before they submitted to defeat in their first meeting this season and will be ready to get revenge for the defeat they suffered here in Lexing-

STUDENT TALENT IS FEATURED ON SUNDAY VESPER

Men's Glee Club Is Special Attraction of Regular Sunday Afternoon Musicale

SPECIAL NUMBERS ARE PRESENTED

Mary L. McKenna, Ruth Clopton. Mary Rudice', Quartet Take Part

By DAVE SALYERS

The University Men's Glee ciub with Mary Louise McKenna, soprano. Ruth Ciopton, recontuese, Mary Rudicei, harp.st, Je s. Mountloy and Harlowe Dean, tenors, and a spec al quartet as feature numbers, presented its annual v sper concert in the first of the Sunday afternoon musicales of the semester, Sunday at 4 p. m., ln Memorlal hall.

The entire concert showed the result of careful planning of numbers, both in varlety and training, and attained a finesse not present ln some past performances of the club. The blendn's of the voices was un-usually good, and the effects pro-

duced by each number excellent. The feature numbers provided a delightful variety in the program Miss McKenna's numbers were "The Spirit Flower," by Campbeli-Tipton two clever readings, "The Little Peach" and "I Aln't Going to Miss Rudicel presented two the Garden.'

Mr. Mountjoy's numbers were "Smilin' Through" and "Little Mother of Mine," and Mr. Dean The spec al quartet, composed of Harlowe Dean, Robert Dean, Jesse Mountjoy and Dawes Thompson, accompanied by Miss Rudicel, presented four numbers, By the Waters of Minnetonia, "Mammy's Lullaby," and "Jada" und "Ciose Harmonies."

Among the Giee club's sciections were the popular "Tramp, Tramp, Tramp" chorus from Victor Her-"Naughty Marletta;" bert's man's "The Bullder"; "Dedication" by Frang; "Battle of Jericho," by Bartholemew; a folk song, "Hoodah Day"; and as a closing number the immortai Soidier's Chorus from 'Fau t." A NEW REGISTRATION SYSTEM

Registration for the second semester again demonstrated the inefficiency of the system used for enrollment of students at the University. On one of the coldest days in the year many were forced to stand in line in the bitter temperature.

Feeble efforts, such as the providing of benches for sitting down while waiting, have been made to better the situation, but it is still fraught with inefficiency. The situation is reminiscent of the corraling of cattle; the "bundling" of them

When an evil continues for a number of years, many come to believe that nothing can be done about it. It grows, as a wart on a face, and becomes a permanent fixture. So it is with registration-students and faculty alike have complained of the situation for years, but with the feeling, "What's the use, we can't do anything

The Kernel believes that something can be done about it, despite the over-cynical attitude of many in regard to conditions. To this end we offer two suggestions which we hope may lead to a betterment of the ever disconcerting situation with regard to registration.

The first alternative is a registration alphabetically arranged. The group of students whose names run from A to I, for example, could regto register at the times specified could "take their ' gentlemanly instincts.

chances on the afternoon of the second day. At most, this system would produce only one afternoon of confusion rather than two whole days.

Another alternative suggests itself in the form of registration by classes. Under this plan, freshmen could register the morning of the first day, sophomores in the afternoon, juniors and seniors the morning of the second day, and those who failed to register at the time specified for their To the writer of a so-called ".ear class could "take their chances" on the afternoon of the second day. This idea is merely an larly amusing. claboration of the system used in the fall semes- the scandal column of the official ter when freshmen only register the first day, organ of the University of Kentucbut we believe it would make for greater effic-

G-E Campus News

CRASHI

IT's a thunderstorm sweeping over Pittsfield, Massachusetts. But G-E engineers, instead of hiding under the bed, go up on the roof to be nearer the lightning. On one of the buildings of the Pittsfield Works they have built and equipped a lightning observatory. By means of an ingenious periscope and a high-speed, motor-driven camera, any lightning flash occurring within many miles-north, south, cast, or west-can be automatically photographed. Its characteristics, as recorded on the him, can then be compared with those of the artificial flashes produced by the 10,000,000-volt lightning generator in the laboratory.

An observatory has to have a hole in the roof. To keep the rain from falling on the I2 lenses of the camera—and from running down the engineers' necks—compressed air is blown npward through the aperture. When next the thunder rolls over the Berkshires, and timid chizens are cowering under the bedelothes, these G-E engineers will be up on the roof taking notes on Jove's own brand of lightning. GAME BID

DOUBLED! Redonbled! North led, but the dummy was 6000 miles away. Psychic bids flew thick and fast when a North American contract bridge team, including Mr. and Mrs. Ely Culbertson, played a "bridgecast" tourna-ment with a high-ranking team from Argen-tina. The North Americans were seated on the stage of Rice Hall in the General Electric Company, at Schenectady, N. Y., while the Argentine team played at the Casabal Club in Buenos Aires. The plays were carried by the shortwave stations W2XAF and LSX, of North and South America, respectively. W2XAF, in Schenectady, need a feed-back

circuit so that short-wave listeners all over the world, tuned to the one station, could follow the playing with as great case as the 500 kibitzers who jammed Rice Itali. This was the first international bridge broadeast in which the principals were all recognized experts. The North American team, captained by Culbertson, won by a margin of 1030 points.

BEDROOM PRIVACY

MANY a man has shinned up a lamppost to daub paint on a street lamp that shone ln his bedroom window. Many another light sleeper, of lesser climbing prowess, has tried throwing shoes and hair brushes at the offending light. Now there is hope that this war will soon be over.

Adequate street lighting is, of course, a necessity. G-E illumination engineers have perfected a new fixture that directs the light where it is needed-on the street-and keeps it from trespassing on the pillow. A concealed light source and a reflector designed along new optical lines have removed street lamps from the list of public enemies of sleep.

Motorists, too, will welcome these new lunuimaires. Because the reflector extends below the incandescent source, the driver's eyes are protected from direct glare-lie can see the road better.

ALIGHTSMOKE

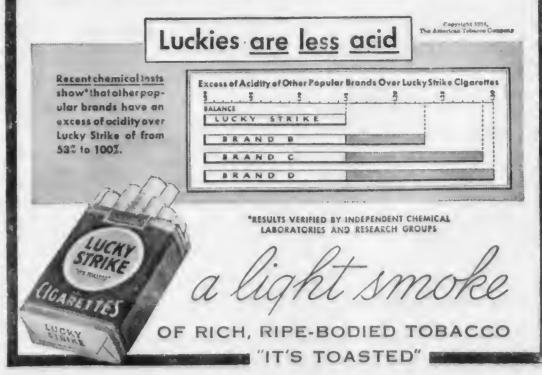

of rich, ripe-bodied tobacco

advances have been made in the selection and treatment of cigarette tobaccos for Lucky Strike Cigarettes.

They include preliminary analyses of the tobacco selected; use of center leaves; the higher heat treatment of tobacco ("Toasting");

Over a period of years, certain basic consideration of acid-alkaline balance, with consequent definite improvement in flavor; and controlled uniformity in the finished product.

All these combine to produce a superior cigarette - a modern cigarette, a cigarette made of rich, ripebodied tobaccos - A Light Smoke.

Every hing seems to be "hunkydown in Knoxville today. Majo: Bob Neyland is back in town. And there to seek victor es with the Tennessee Volunteers for the next five years. The 43-year-old army engineer, bronzed by the sun which shines so brightly in the Panama canal zone, arrived in Knexvine this week after spending the past year on duty with the Army in Panama.

Neyland left the Tennessee institute last year following military orders and the famous Volunteer foo.ball team that Major had been building up since 1926, cracked completely, losing games to five of their s.rongest rivals. The alumni and fans of Knoxvide sent out an SOS call for the return of their famous coach. And so he is back, and with a reported salary of \$12,-

When questioned the other day abcut football eoaehing Neyland said, "I don't think I'.l ever go back to the Army. It's football from

Maybe Coach Adolph Rupp should schedule the New York University Violets on some court other than Madison Square Garden. The Violets lost two games last week, one to Georgetown University of Washington, D. C. and one to Temple University. They seem to be just another ball team on a neutral court.

Marion Miley, Lexington's gift to fem.n.ne goifgem, suitered another loss Saturday afternoon in Miaml Patty Beig, Minneapolis school giri, handed Mar ou the defeat, the second time this season that the Minnelo, a red-head has conquered the Lexingtonian.

SECOND ALABAMA TILT GOES TO **CATS 40-34**

For the second time in the same eek Kentucky's Wi.deats overpowered Alabama's smooth-working basketball squad when they scored a 40 to 34 win over the Tidesmen

last Friday night in Alumni gym.
Outplayed and outseored in the early stages of the conest, the Wildcats, gaining new lf: with the insertion of J. Rice Walker into the lineup, ran roughshod in the final few minutes of the first half to gain a one-point edge at half

changed hands so rapidly that the large crowd was on its ict in excitement for several minutes.

After the second half got under-way the final issue was solden in doubt Kentucky immediately aided several points b fore Alabama could register and opened up a gap which the Tide was never ab'e

The game started off slowly with both teams feeling their way cau-Bama's first points bu Lewis i bounded to the up the game. From the point on, the Tidesm n, workng the ball throng's Kentucky's decoun'ed with several sho's from inside the foul circle and on or two lenger a tempts, and with five minutes left in the first hat' were leading the 'Cuts 11-9 Wu'ke scored with a one-hander from couter the highly rated Butler Buil. the corner, Lewis repeated from th left, Walker dribbled through for

Anderson made a free threand Lewis and Ralph Cariisie chalked up four points be ween them before McLeod scored for the Tide. Carliele, Donoline and Walker added more Kentucky points a the 'Cats pushed far out in front before ten minutes had passed

After Walk'r had been ban'shed on fculs, the Tide s arted another assault on the hoop which brought them within five points of the home team but Anderson's crip with Carlisle's one-hander and a field goal and free throw by Garland Lewis kept the Wildeats well out in front and they coased in to a deserving vietory.

Ralph Carlisle with 15 points and Garland Lewis with 11 were high men for Kentucky with J. Ricc Walker in third place with 7 points Nogl, Alabama back court man and Bouska, forward, combined to total of Alabama's points, mainly hrough their distance shooting ef-

Sport

By BOBBY EVANS

While in Emovy ile Tuesday and Neductiny for the Kentucky-Tenssee boxing me t, we were able to et the late t reports on Herbie Cade, and to moid this in the form

f a sport sketch. Herbie was born at Paduenh, Ky. he is 6 feet tall and e ghs 188 pound, a junior in the College of Education and a memper of Vols Prog.am Committee. Although every fraternity on the Cennes ce campus has made a trong bid to stick a pledge pen in he Kentuckian's lapel, Herbic is great deal indep ndentl). have already read about this irreroachable character, but to make ure that these reports were true ind not for the purpose of making living martyr of the injured athlete, your corre pondent made a horough investigation of the queswere decidedly true. Recently at one of their school dances, the student body paused, and with every hand bowed, offered a prayer that Herbie would recover. Several high chools around Knozville hav played benefit basketball games for h.m in addition to the Kitten-Rat game played here last night.

Some of the reports about Tade's condition were discouraging; others were more optimistic. Only his closest friends are allowed to visit him. His speech has improved very little, and his memory is still vague. In fact, he recals very little of nis stay in Lexington, but remembers Dr. Chambers Dr. Vance, and the WANTED - Mathew's American nurses at the hospital. However, he is very jolly now, laughs with his friends, knows them all by name, reads, tunes the radio, walks RANNELLS TALKS AT MIDWAY about in his room, and the most encouraging part about his physi-Prof. E. PURSUIT

By mild ripe
tobacco we mean
tobacco this—
just this— FIRST—ripened in the sunshine ... Picking leaf tobacco in the and picked leaf by leaf from the right "Bright" tobacca fields of Virginia and the Carolinas. part of the stalk when fully ripe. THEN—each day's picking cured right by the farmer . . . at the right time and in the right way . . . no "splotching" or brittleness, but every leaf of good color and flavor. FINALLY - bought in the open market...re-dried for storage...then packed in wooden hogsheads to age and mellow for two years or more until free from harshness and bitterness. That's what we mean by mild, ripe tobacco. And that's the kind of tobacco we use to give Chesterfields Type of barn used for "fluetheir milder, better taste. curing" leaf tobacco. Itstanding .. for mildness .. for better taste Hogsheads of leof tobacca 'ageing" for two years in storage warehouses. @ 1936 LIGGELT & MYERS TORACCO CO.
